

## Ms Boreham– Assistant Head Teacher

- I joined Maryland in 2010 as an NQT teacher and became an Assistant Head Teacher in Autumn 2015. I previously spent 10 years working in finance in and around the city of London. This experience gave me a desire to ensure children experience enterprise and a build a confidence with money to prepare them for a successful future particularly in East London. I have brought this life experience to help promote the school and develop learning opportunities in the garden and support the children in the upkeep of Cluckingham Palace.
- I have a love of languages and part of my PGCE was spent teaching in France. I also learnt Indonesian as part of my degree. I use these skills to teach French to Year 3,4 and 5.
- I have taught in Year 4 and 5. As part of the senior leadership team, I support Mrs Jackson and Mrs Cooper in their absences. I help plan towards the whole school to ensure we are meeting the needs of the children, parents and wider community. I am also part of the governing body.
- I support Mrs Cooper to review the curriculum being taught at Maryland and ensure all our pupils have access to rich and purposeful learning. I have been the Science and D&T subject leader since 2012. I also appraise teachers to support the teaching and learning across the school.
