

Dear Parent/Carer,

Home Learning Update

We are now entering our second week of remote learning via Google Classroom. Teachers are submitting and checking work daily and finding that it is a great way to keep in touch with pupils and parents. There is some great learning taking place and we are celebrating excellent pieces of work that have been submitted by displaying them on our website. Visit our new [Home Learning Page](#) to find out more.

We realise that remote learning is new territory for parents and that many of you are trying to balance working and supporting your children's learning so please do what you are able to. You can present learning in any format you like. Some of you may prefer to present work digitally, whereas some may prefer to answer questions using pencil and paper. If you prefer to adapt activities slightly to make it more hands on for your child, this is fine too! If you have trouble uploading pictures or submitting work you can write a comment to let the teacher know how the activity has gone instead. Deadlines are there as a guide so feel free to work at your pace.

If you have not logged on please do so by following this [link](#). If you have any difficulties logging in or using Google Classroom please get in touch via info@maryland.newham.sch.uk and we can help you.

Please make sure you log out of any of your personal gmail accounts on your device before accessing Google Classroom, as having two accounts active at once can cause technical problems.

If you use a tablet or a phone you may find it easier to download the app. You can download here for [Android devices](#) and for [Apple devices](#).

We will also be creating a second special video message for our Maryland families which will include showcasing some of the great work Maryland pupils are producing at home. Please continue to share your child's work by sharing a photo or a very short video (no longer than 10 seconds) with the class teacher via Google Classroom (preferred option) or alternatively send to info@maryland.newham.sch.uk.

Finally, if you have not yet viewed the original special video message for Maryland families please click this [link](#) to download.

Regards,
The Maryland Team
